DETAILED ACTION

Response to Amendment

The amendment filed on February 14, 2006, has been entered and acknowledged by the Examiner.

Claims 1-37 are pending in the instant application.

Claim Rejections - 35 USC § 112

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. In amended/added independent claims 1, 7, and 13, Applicant claims that the auxiliary metal electrodes are electrically separated from the metal electrodes. The Examiner understands the phrase "electrically separated" to require the auxiliary metal electrodes to not be electrically connected to the metal electrodes; this is considered new matter. In paragraphs [0044], [0057], and [0066] of the Applicant's disclosure the auxiliary metal electrodes are described as being electrically connected to the metal electrodes. From paragraph [0044]: "A discharge voltage supplied from the metal electrodes 114B, 116B via the transparent

Application/Control Number: 10/807,433

Art Unit: 2879

ITO electrodes 114A, 116A is applied to each of the auxiliary metal electrodes 114C, 116C."

The prior art rejection of the claims in the Office Action mailed on September 14, 2005 is maintained. If the Applicant should overcome the new matter rejection of claims 1-37, the finality of this action will be withdrawn and the prior art rejection of the claims in the Office Action mailed on September 14, 2005 will be reconsidered.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
